Dear Graduates of the Class of 1965:

Every year the editors of FOLIO determine the theme of their very impressive Yearbook. I wondered what would be their choice for your class. Would it be the nuclear danger that continues to menace humanity, or the change in public life from the New Frontier to the Great Society, or the peaceful exploration of space, or the libertarian decisions of the Supreme Court, or the new understanding of the genetic structure of living things, or any other of a dozen possible challenges that confront us today? Instead, your editors chose to deal with an aspect of education — not the entire subject, not even the three "R's" which all Americans regard as a cornerstone. The theme they chose was paradoxically both more delimited and more all-embracing. They chose two of the three "R's" — the Alphabet.

No group of human beings, no matter how primitive, has ever been found that did not have a language. But the art of writing did not emerge until rather late in the development of mankind. In fact, it is considered the dividing line between primitive and civilized cultures. Writing and reading, which is the other face of the coin, provide the foundation for education for civilized living. The letters of the alphabet are as much the building blocks of the world of knowledge as atoms are the building blocks of the universe.

It is now twelve years since you began your formal schooling and your mastery of the ABC's. Some of you look back upon these as happy years in which school opened for you the rich storehouse of ideas and activities. Some of you have regarded school as an essential developmental activity in which you had to engage to win the approbation of the adult world. Some few have looked upon school as a nagging interference with "life, liberty, and the pursuit of happiness." Yet I know that all of you must have at times found you were stimulated by the enthusiasm of your teachers and attracted to some chambers in the mansions of thought. I know too from the past record of Jamaica graduates that a relatively large group will continue to pursue their studies to the point where they will become producers as well as consumers of ideas.

We hope that after you leave Jamaica, you will have occasion to open this book and look back with pleasure and satisfaction on your relatively uncomplicated and lighthearted schooldays.

MR. SAMUEL POLATNICK

Mr. Samuel Polatnick, a "Principal-Intern," is working with experimental programs in team teaching until September, when he will become the principal of the new Springfield Gardens High School. Before coming to Jamaica, Mr. Polatnick was the chairman of the Social Studies Department at Martin Van Buren High School.

ADMINISTRATIVE ASSISTANTS

DR. HOWARD HURWITZ

Dr. Howard Hurwitz, Vice-Principal, is in charge of all aspects of student guidance. Before becoming Vice-Principal, Dr. Hurwitz was an Administrative Assistant at Manual Training High School, and a social studies teacher here at Jamaica High School. Dr. Hurwitz is the author of our student handbook.

MR. AARON ROSE

Mr. Aaron Rose, Administrative Assistant, is in charge of the programming and organization for the school. Some of Mr. Rose's tasks include programming uniform exams, assemblies, conferences, providing substitute teachers, and supervising the general office staff. In the past, Mr. Rose has been the G.O. advisor and a social studies teacher at Jamaica High School.

THE DEANS

"The sting of a reproach is the truth of it."
—Benjamin Franklin

The boys' and girls' deans have similar jobs pertaining to their respective groups. Aside from intellectual development, the deans are concerned with making each student's stay at Jamaica a worthwhile experience in community living. Whether it be a personal problem or a problem of discipline, the deans are willing to aid the student in any way possible. Very often this requires interviews with parents as well as students. Although the deans spend much time in their offices, each manages to teach two classes a day in his own special field.

LIBRARY

With its wide variety of publications in numerous fields of literature, the library is well-equipped to supply every student's needs and desires. The library also serves as a study room for those students who have a free period during the day. Our staff, headed by Mr. Lewis Scher, helps the student with his research projects. Library Squads work as assistants, putting books away and keeping the shelves organized.

CURRICULUM

ENGLISH DEPARTMENT

The twenty-five permanent and six part time teachers, under the guidance of Dr. Joseph Mersand, chairman of the English Department, plan their programs to include literature from ancient times to the present. Starting with works like "The Illiad" and "The Odyssey" in the freshman and sophomore years, students traverse the literature of different ages.

Special programs in the department include: the Remedial Reading Program, and the Honor, Extra Honor, and Advanced Placement classes. This year, the regents was given in January to all seventh termers in H, XH, and AP classes.

SPEECH DEPARTMENT

"Speech is the gauge of the extent of education," according to Mrs. Rose Kirchman, chairman of the Speech Department. "Thus, the purpose of our speech classes is to make students aware of language as an instrument for effective oral communication, conversation, discussion, and acting. Aristotelean rhetoric, and other methods used by ancient orators have been adapted for use in the public speaking and oral English classes. The classes elevate the taste of our students to use mass media more discriminately, to think in terms of effective citizenship, to participate in community work, to understand other people, and to speak appropriately."

This year, various speech classes have gone on theatre excursions to "Dr. Faustus," "The Trojan Women," and "A Midsummer Night's Dream." The thespians of Jamaica, under Mr. Bruce Schneider, presented "My Sister Eileen." Those who enjoy the more argumentative side of speech participated in the Debate Society, under the direction of Mrs. Linda Rosenberg.

"The man who knows no foreign language knows nothing of his mother tongue."

—Goethe

Language is the basis of the relationships among all beings. It is an evolutionary means of communication for all human beings; the foundation of all social relations; an acquired skill.

We in America have come to realize that language is one of the keys to peace and security. Within our country alone, we have representatives from virtually every nation in the world. In order to prepare the younger generation for life in our diverse society, we have stressed the importance of foreign language study.

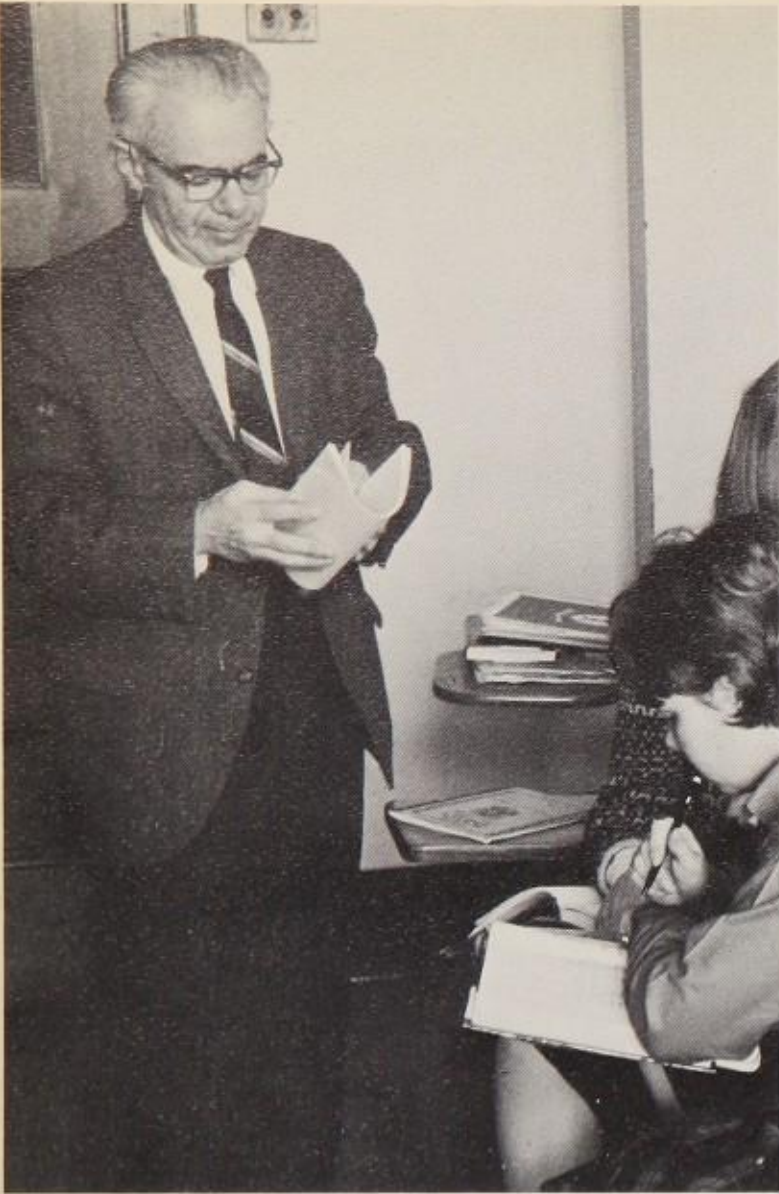

Under the chairmanship of Mr. Abraham Aaroni, the Department has established a program to motivate the students to study a language through the understanding of the spoken word, oral expression, and the reading and understanding of short works. They gain a new cultural heritage, and an insight into the people and currents of feeling by exposure to great works of literature.

Courses are offered in French, Spanish, Hebrew, Latin, and German. In order to broaden the background of the students, the Department sponsors a French Folk Sing Club in the spring term, led by Mr. Donald Herold; a Hebrew Club, directed by Mr. Ben Weider; a French Club, directed by Mr. Martin Tall; and a Spanish Club, directed by Miss Muriel Inker. An Advanced Placement French literature class, taught by Mr. Herold; a Latin etymology class, given in the spring; and AXH courses in Latin, Spanish, and German, which cover two years of the language in one year, are offered to outstanding language students.

Social Studies encompasses both the historical events which have led our world to the heights on which it rests today, and a study of the dominating forces behind the events of economics, geography, and problems of democracy.

Under the direction of Mr. John Kunit, the Social Studies Department has instituted new and effective teaching techniques. Team teaching, the consolidation of two or more classes, lectured by one teacher who is well-versed on the topic, has been used to a great extent, and gives students the advantage of individual and specialized knowledge of the subject. It enables the other teachers to give special instruction to those students who wish it. A large number of students participating in this program later discuss the lecture in seminars conducted by their own teachers. As an additional supplementary method, the department has made great use of the overhead projector in order to enlarge illustrative material such as graphs, maps, and political cartoons, thereby following the advice of the old maxim, "A picture is worth a thousand words."

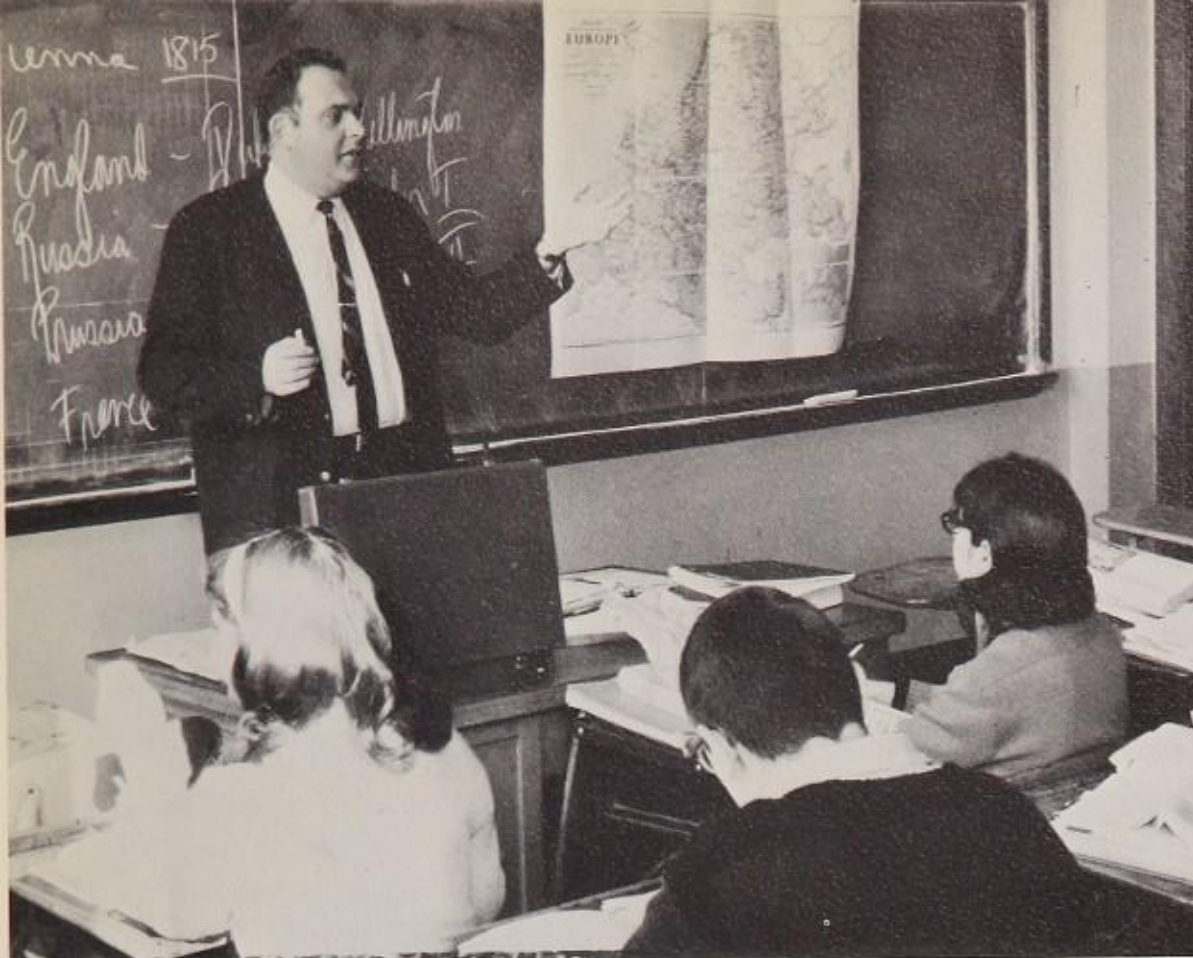

Advanced Placement courses in American History and in Western Civilization give a deeper insight and interpretation of history from past to present day problems. Through the United Nations, Discussion, and Human Relations Clubs, Jamaica helps to promote an understanding of our world, and a foundation for the desire for peace in our generation.

PHYSICAL SCIENCE DEPARTMENT

The meaning of the Latin word "physica" has changed along with the progression of science. The purpose of the Physical Science Department, according to the chairman, Dr. Nathan Feiffer, is to provide scientific literacy for people living in a world which is more and more technological, with a greater dependence on science.

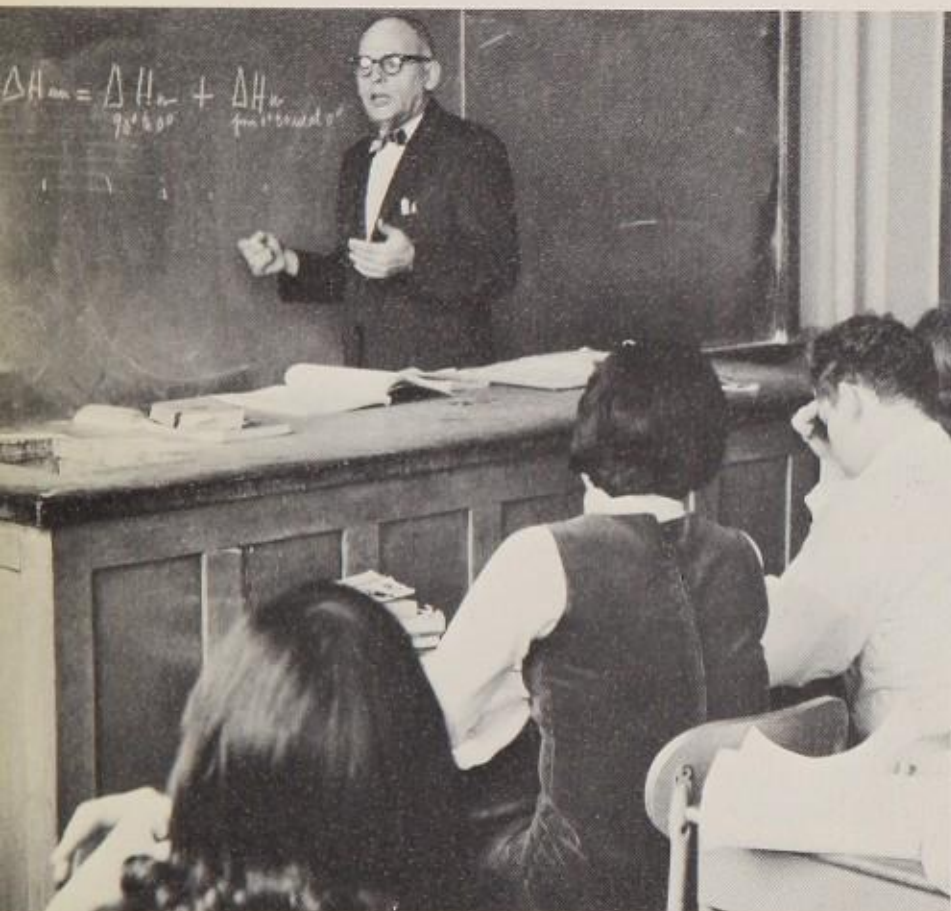

The teachers in this department aim to teach students methods that are used by scientists to solve problems. Scientific talent and interest in scientific professions are developed by the Physical Science Department. Clubs include the Radio Club, Astronomy and Earth Science Club, Chemistry Club, and Physical Science Laboratory Squad.

Early man was primarily motivated by sheer necessity and the requirements of survival. These same objectives motivate biological studies today in agriculture, heredity, and medicine. The Biology Department of Jamaica High tries to impress upon all students the understanding of the relationships of living things. Special programs such as the Science Corps, Honor, and Advanced Placement courses are geared to interest young people in science careers.

For those who are interested in exploring the different phases of biology, the department sponsors the Aquarium Club, Biology Laboratory Squad, Palentology Club, Protozoology Club, Science Art Club, and the science publication, "Nucleus."

MATHEMATICS DEPARTMENT

"Mathematics provides a language and structure which has become the mode of expression and thinking of all scientific fields of study." This statement, made by Mr. Samuel Altwerger, is especially apt in view of the increasing importance of mathematics in such social sciences as psychology, sociology, and anthropology.

Here in Jamaica High School, our Math Department, under the supervision of Mr. Altwerger, ably prepares us for our future careers. For gifted students, Jamaica offers a program of honor classes from the sophomore year through the senior year. Our tenth year honor students are given a taste of solid geometry in addition to the regular course of plain geometry. In eleventh year honor classes, the students are given certain topics from college algebra. Two twelfth year college level courses are offered: Modern Math, and Calculus. Ten per cent of our senior class is enrolled in both of these courses.

The Math Department also has a number of extra-curricular activities, such as the Junior and Senior Math Teams, the magazine, "Radius," and the Chess and Bridge Clubs.

INDUSTRIAL ARTS DEPARTMENT

We, in a society which has become more and more demanding, must learn to broaden our horizons, to embrace the arts as well as the sciences, for art is but another means of addressing humanity. Throughout the history of Jamaica, the Industrial Arts Department has been an integral part of the school's curriculum, gradually changing from a department geared to general students, to one which enhances the general education of all students. Its courses, ranging from an introductory class in ceramics and metalwork to the exploration of all phases of woodwork, broaden the backgrounds of all students who take them. For those who do not intend to go on to college, the courses offered by the Industrial Arts Department lay the foundation for further vocational study.

In order to better understand the workings of our automated society, the use of tools and instruments, and the design of standard machinery are taught in Mechanical Drawing. New machines and teaching techniques have been introduced, and shops have been rearranged to provide seating areas and to facilitate the showing of slides and movies. The Industrial Arts honor organization, the Artisans, is a vital unit of our school. The Artisans build the scenery for our plays and remodel our department offices.

HOME ECONOMICS DEPARTMENT

Under the acting chairmanship of Mrs. Rose Kirchman and the supervision of Mrs. Marie Riva and Mrs. Sylvia Lipsky, the Home Economics Department has become a very important part of our school curriculum. This department aids in the development of a well rounded student by teaching the basic elements of cooking, child development, family living, and the art of making clothes. It prepares Jamaica students for lives as homemakers. For girls who go on to college, the study in home economics serves as a preparation for more independent living away from home.

Home Economics encompasses the culinary arts which aim to create a healthy, well-groomed girl who is prepared to be a homemaker. She learns what to look for in the foods she buys, and how to use the newest convenience foods which are tasty and nourishing as well as easy to prepare. The Home Economics Department offers a course in Foreign Cookery where girls exchange family recipes, and do research projects to learn recipes of other lands. Each year the girls take a trip to the Good Housekeeping Center.

The area of child development has changed in recent years as a result of emphasis on the emotional as well as the physical development of children ages one to ten. The girls go to various agencies which take care of children

and do research to see how these agencies fulfill the needs of the community. The students learn how to observe a child, to analyze him in terms of age, physical stages in development, and environment. They write and read stories which would interest children.

The opportunities for extracurricular activities are many and varied in the department. The Home Economics Careers Club exposes college bound girls to such careers as dieticians and nutritionists. The Costume Club, under the direction of Mrs. Riva and Mrs. Lipsky, creates and designs contemporary costumes for plays on stage and for the Spring Festival. The Hostess Club serves the school at such functions as the Parent Teacher Orientation Tea and Arista Tea.

When scholarship opportunities come to the attention of the teachers of the Home Economics Department, they make the students aware of them. This year over fifty girls participated in the Betty Crocker Scholarship Program.

The courses offered in clothing enable the girls to select projects which fulfill their wardrobe needs. Their projects range from the creation of evening gowns to coats, according to previous training. Besides the creation of wearing apparel, they make such things as hats and accessories. The students study the effects and psychology of color in everyday life and on stage.

ACCOUNTING DEPARTMENT

Accounting is often called "the language of business," for it is used for the collection, classification, and reporting of business transactions. The purpose of the Accounting Department of Jamaica, as stated by Miss Anita Liotta, is "to acquaint students with the realities of life, the business world; to give them a practical education rather than just an aesthetic and cultural education and to prepare them for their future careers."

Classes are offered in Accounting, Merchandising, Business Law, Business Machines, and Record Keeping. In addition, there is a special Accelerated Accounting course for college bound seniors. The department sponsors such extracurricular activities as the Accounting Honor Society, the Merchandising Honor Society, the Future Teachers Honor Society, and the Distributive Education Club of America, which participates in interscholastic competition.

For college bound students, the courses offered by this department include Stenography and Legal Typing, to be used in their future academic pursuits.

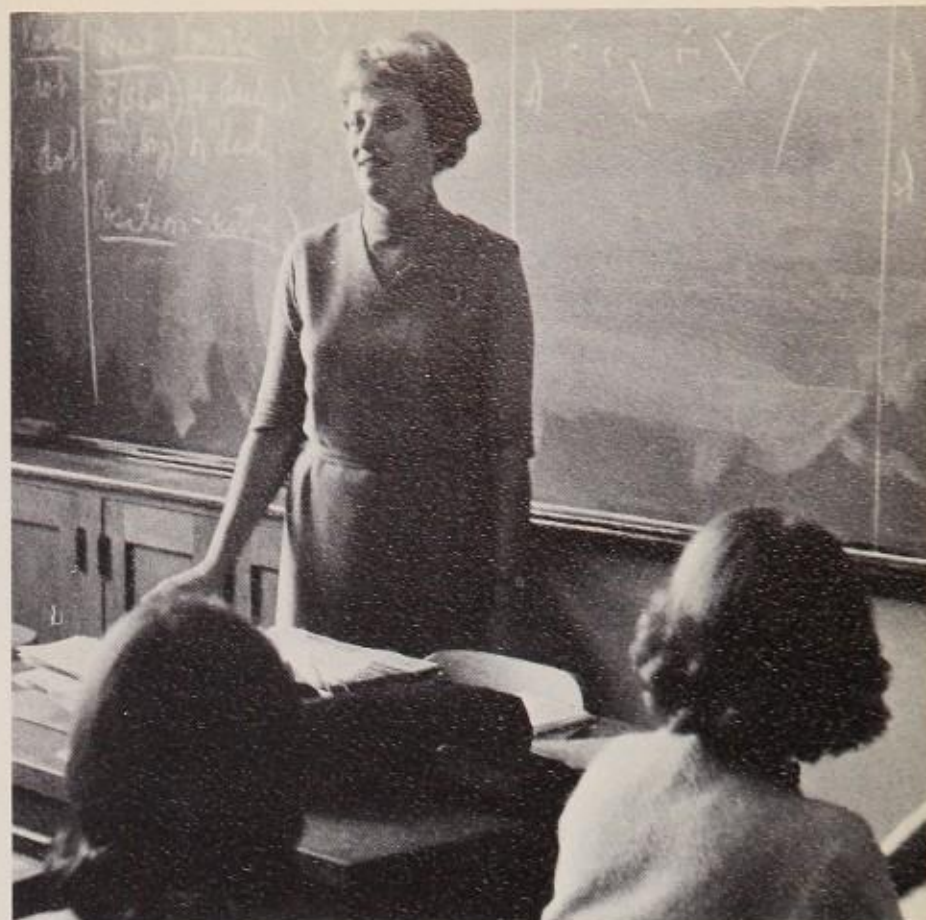

The nine teachers of the department are aided by such modern equipment as the duplicating machine and the electric typewriter. The "Duplicating Club" under the guidance of Mrs. Rhoda Harnick, runs the mimeo and rexo-graph machines for the school.

An Honors program is given to advanced students. The department sponsors the Tironians, and the Secretarial Studies Honor Society.

MUSIC DEPARTMENT

Music is an ageless and international language. It is a medium for expressing moods, feeling, and trends in society, as well as for relating myths and legends. Music is poetry, and the poet, according to the ancient Greeks, is only an instrument of heaven—"a pipe on whom the gods play"

The Jamaica High School Orchestra, Band, Chorus, and Choir perform music of various types, from the classical Bach and Tchaikovsky, to popular music. In an effort to bring the realm of music closer to the student, and to increase appreciation for the beauty of sound, the department has organized the Folk Singing, Madrigal, and Chamber Music Clubs. The department also offers courses in Harmony and in the History of Music.

ART DEPARTMENT

The main purpose of our Art Department is threefold: First, to acquaint all Jamaica students with art as an aspect of our cultural heritage; second, to provide all Jamaica students with an opportunity for self-expression in visual form; and third, to give those students with special ability a foundation for advanced art study after graduation.

Our Art Appreciation classes meet the needs of the general student body. Classes in Elective Art, Basic Art I and II, Figure Drawing, Commercial Art, Painting, Interior Decoration, and Art History, are offered to those students who desire to specialize in art.

The department also plays an important role in the publication of "Folio," "Scribe," and other school publications; in creating visual publicity for school events; and in the preparation of scenery for dramatic productions. The Art Club and Publicity Council offer further opportunities for extra-curricular activity to the art enthusiast.

The aim of the Girls' Health Education Department is to encourage proper habits of health, exercise, and appreciation of the benefits of physical activity, in the hope of developing attitudes of good sportsmanship and cooperation among the girls. The department works towards providing opportunities for participation in worthwhile leisure time activities.

Among the new techniques in use at the present time are physical fitness exercises with musical accompaniment.

The Girls' Health Education Department sponsors the Bowling Club, Dance Club, Dance Corps, Golf Club, Leaders, and Future Nurses Club, as well as Swim Assistants.

Special projects include a city wide Leaders weekend, and a trip to the ballet for the girls of Dance Corps.

"Mens sana in corpore sano." The members of the Jamaica High School Boys' Health Education Department firmly believe in this ancient maxim, employed by the Romans centuries ago. As Mr. Leo Greenfest, one of our Boys' Health Education teachers stated, the purpose of the department is "to build a body and an attitude to suit the fine minds and training here at Jamaica High School." The department accomplishes this by team sports and individual instruction. In the gym classes, a program of calisthenics and gymnastics is followed. Classes also engage in soccer, football, basketball, volleyball, and baseball.

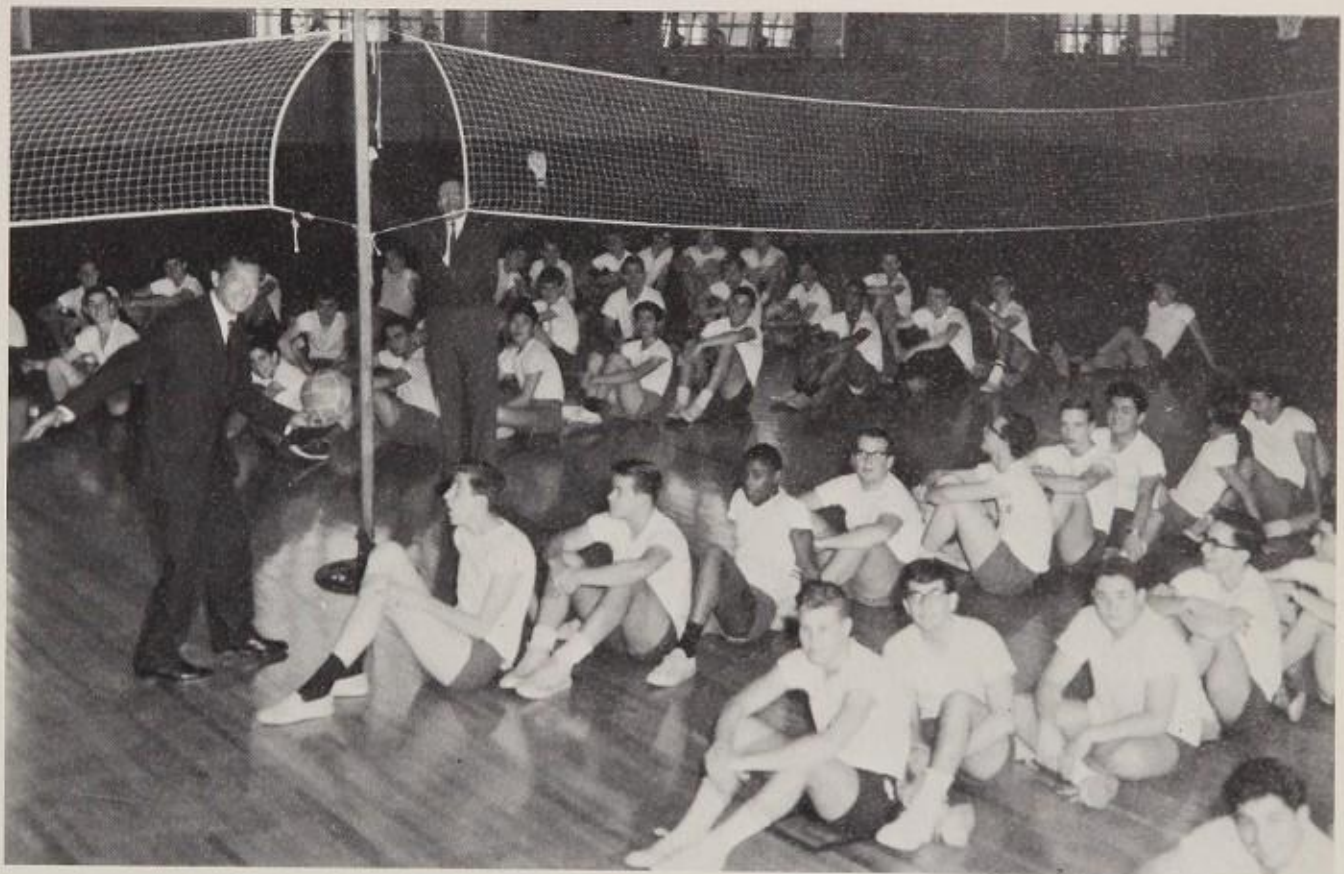

The department sponsors many interscholastic teams (fencing, basketball, cross country, track, soccer, swimming, baseball, tennis, bowling, golf, rifle, handball) as well as the Ski Club and Swim Assistants.

Student Court, which was established last year, is the judicial branch of our student government. The job of the Court ranges from revising and interpreting the G.O. Constitution to trying the cases of those students who feel that they have been unjustly ejected from G.O. meetings. The powers of the Student Court are constantly expanding, and the existence of the Court makes our student government more democratic.

The Student Court is composed of one chief justice and six associate justices who are selected by Student Council according to their experience in student government.

Jamaicans are fortunate in that they have an active student government. The Student Council is composed of a gallery of interested students and the Senate which seats representatives of various school organizations and publications. Student Council is responsible for considering all bills concerning student government and budgets for Jamaica's teams and clubs.

In addition, the G.O. sponsors many school activities such as the Fall and Spring Dances, school plays, and arts festivals.

As stated by Edison, "Genius is one per cent inspiration and ninety-nine per cent perspiration." This description, applied to Jamaica's Junior Arista and Senior Honor Society, is not altogether accurate. Although these students work hard to maintain their excellent scholastic records (forming the top 2% of the school), and devote much time to tutoring students less gifted than themselves, they take an active part in school service and in Jamaica's wide range of extracurricular activities. They participate in theatre excursions and parties.

HILLTOPPER

"Hilltopper," Jamaica High School's newspaper, lives up to its motto by "Serving Jamaica with the Best in Scholastic Journalism." Under the direction of Mr. Milton Silver, it keeps Jamaicans informed of important school affairs such as elections, awards, and other special activities. "Hilltopper" is distributed monthly to all G.O. members.

"A newspaper is the history for one day of the world in which we live, and with which we are consequently more concerned than with those which have passed away, and exist only in remembrance."

SCRIBE

Scribe is Jamaica's literary-art magazine, which contains creative writing and art work done by our students. Under the direction of a new literary faculty advisor, Mrs. Paula Schwartz, Scribe has a different format this year. It contains short stories as well as essays, critiques, word games, and interviews with famous people. Mrs. Maxine Koble, of the art department, advises the art staff which illustrates the works published in Scribe.

SENIOR MATH TEAM

Advisor: Mrs. Sylvia Landsberg

Captain: Jay Epstein

Co-Captain: Lester Sonnenmark

The Senior Math Team, under the sponsorship of Mrs. Sylvia Landsberg, is composed of juniors and seniors who are gifted in mathematics. The aim of the members of the Math Team is to develop and exhibit mathematical abilities using such resources as reasoning and intuition. The students compete ten times during the year with other high schools, such as Van Buren and Francis Lewis, through the Interscholastic Mathematics League.

JUNIOR MATH TEAM

Advisor: Mrs. Geraldine Shaw

Captain: Steven Veradi

Co-Captain: James Shaw

Secretary: Robert Schnabel

Sophomores who excel in mathematics are given the opportunity to compete with other students in the Junior Math Team under the direction of Mrs. Geraldine Shaw. The members, who come to school one period early each day, study topics not offered in the regular syllabus, such as number theory and modern math, and prepare themselves for the Senior Math Team. The members do not compete with other schools, but rather, compete among themselves to achieve excellence in mathematics.

The activities of the Junior Math Team are supplemented by trips and speakers from the National Science Foundation.

"RADIUS"

Advisor: Mrs. Doris Faerber
 Co-Editors: Nickolas Christopher, Stuart Scott
 Art Editor: Jay Epstein
 Publicity Editors: Edward Pan, Randy Ross
 Business Editors: Daniel Dubovsky, Gerald Posner
 Circulation Editors: Stephen Kirschner, Wilfred Lam
 Junior Staff: Arlene Dubin, Gail Katz, Mark Levy, Ellen Post, Randy Volkell

As the mathematics magazine of Jamaica High School, "Radius" serves to enlighten the students by stimulating their mathematical interests. It exposes the students to fascinating realms of math that are not fully explored in the school curriculum. Articles are intended to be informative and challenging, and are directed toward comprehension by the majority of the students.

CHESS TEAM

Advisor: Mr. Roderick MacKensie
 Captain: Ronald Moore
 Co-Captains: John Hechtlinger, Jeff Kapler, David Posner

The game of chess is thought to have been in existence before any records of history were made. However, the first literature on chess came from the Arabs and Hebrews in Granada during the eleventh century.

Chess is a game of strategy. It consists of regularly developed attacks and defense. The main objective of the game is the capture of the opposing player's king. Chess has been called both an art and a science.

Chess is a game of strategy. It consists of regularly developed attacks and defenses. The Chess Team meets every Monday, periods nine and ten. The members have interscholastic meets, show the basic fundamentals of chess to beginners, and have matches among themselves.

NUCLEUS MAGAZINE

Advisor: Mr. Gordon Gilbert
Editors: Jay Epstein, Jeffrey Fierstein, Mark Thorn

Derived from the Latin word for nut, kernel, or fruit stone, "nucleus" signifies that which serves as a center of growth and development. Embodying this concept, it is the goal of "Nucleus" Magazine, our school's science publication, to function as a focal point in the student body's interest and awareness of science. The magazine tries to bring to the students some understanding of the fascinating developments of modern science as well as an appreciation of fundamental principles of general significance.

CHEMISTRY CLUB

Advisor: Mr. Samuel Rosenberg

Science, which is a systematic accumulation of knowledge regarding nature, is derived from the Latin word "scire," meaning to know. In Jamaica, students observe and learn about the physical, natural, and chemical world in which they live.

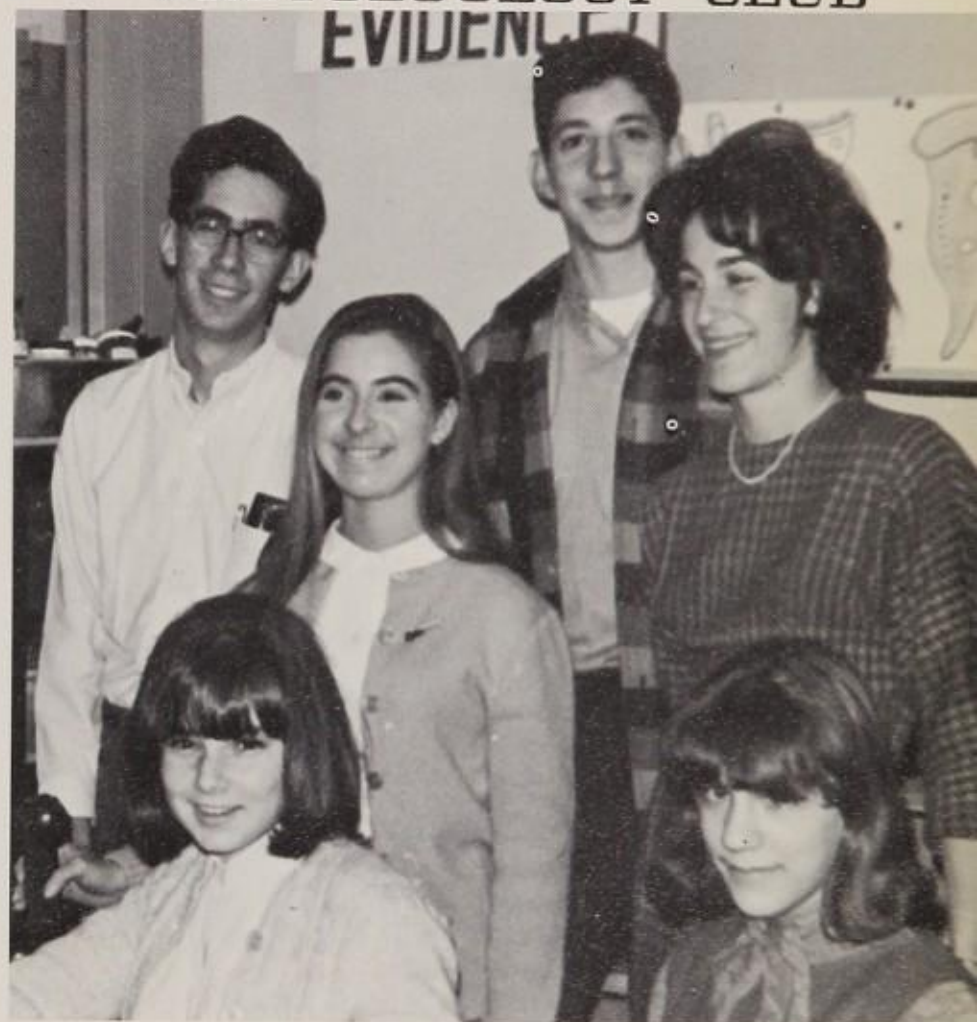

Astronomy, probably the earliest scientific awakening is studied today by students interested in the positions and movements of heavenly bodies and their relationships to Earth.

Just as the medieval alchemists were interested in discovering a method by which they would be able to convert base metals into gold, students at Jamaica are interested in the newest methods and achievements made in modern chemistry.

Paleontology, the branch of the biological sciences which deals with life of the past, is studied through fossil remains.

Protozoology, another branch of the biological sciences, deals with the active study of most primitive forms of animal life. Students at Jamaica study the life activities of such organisms as the paramecium and the amoeba.

HUMAN RELATIONS CLUB

Advisor: Mr. William Dobkin
 President: Mark Feinstein
 Vice-President: Ellen Shapiro
 Secretary: Norma Blase

"Civilization is a slow process of adopting the ideas of minorities."

—Anonymous

Jamaica's Social Studies Department sponsors various clubs for students who are interested in the social sciences. Among these clubs are the Human Relations, United Nations, Problems of Democracy, and Discussion Clubs.

Although they are not sponsored by the Social Studies Department, the Community Service Club and the Debating Club are closely related.

The Human Relations Club, under the direction of Mr. William Dobkin, is concerned primarily with the problems of integration and human rights in our school, community, and country. During their weekly meetings, the members have discussions and listen to addresses by guest speakers. The students find their discussions and programs to be worthwhile in helping them to understand basic attitudes of different minority groups.

UNITED NATIONS CLUB

Advisor: Mr. Frank Sabino

Under the sponsorship of Mr. Frank Sabino, the United Nations Club is concerned with the maintenance of peace and the importance of the United Nations as a peacemaker. Its meetings are supplemented with films, speakers, and a model United Nations conference at the end of the term.

PROBLEMS OF DEMOCRACY AND DISCUSSION CLUBS

DISCUSSION CLUB

Advisor: Mr. Samuel Rosenberg

Advisor: Miss Carol DeMian

The Problems of Democracy and Discussion Clubs are closely related in scope and purpose. Both clubs include interested students who enjoy discussing current events, both domestic and foreign. They discuss the causes and significance of various events in our country, and express their thoughts about how existing problems may be eliminated.

Semi-Finalists: Lester Sonnenmark, Ronald Silverman, Lowell Barek, Jeff Fierstein, Jay Epstein, Simon Aloff.

Finalists: John Loewenstein, Donald Rosenblitt.

SCHOLARSHIP SEMINAR

Advisor: Mrs. Ida Gottlieb

Scholarship Seminar, conducted in the spring term, is a workshop geared to prepare the top students in the junior class for the Regents Scholarship Exam given in their senior year. The students study difficult problems similar to those given on the test.

"IT'S ACADEMIC"

Our "brain trust" competed with Martin Van Buren and James Madison High Schools on January 23, on "It's Academic." As the audience, packed with Jamaica students, cheered on, our team answered its way to victory. The closing scores were Van Buren 220, James Madison 340, and Jamaica High School 420!

In a semi-final competition against Brooklyn Technical and Erasmus Hall High Schools, Jamaica's team came in second. The final scores on this program were Brooklyn Technical 230, Jamaica 285, and Erasmus Hall High 340.

MERIT SEMI-FINALISTS

The selection of three seniors, Jay Epstein, Jeff Kelman, and Ronald Silverman, as semi-finalists for the 1965 Merit Scholarships was announced by Principal Louis A. Schuker on September 30, 1964. The semi-finalists were selected on the basis of performance on five tests on the National Merit Scholarship Qualifying Test which was given last March. The test was given to students at 17,000 high schools. Fourteen thousand seniors throughout the country attained semi-finalist status. Semi-finalists must compete in a second examination, be endorsed by their schools, and fulfill other requirements to become finalists.

Ronald Silverman received a score of 153, the highest in Jamaica. Jay Epstein's score was 150, and Jeff Kelman achieved a score of 148. The cutoff point was 148.

The finalists for Jamaica High School were announced in February, and our three semi-finalists achieved that status.

Secretary: Linda Szalay
Treasurer: Carolyn Schneider
G.O. Representative: Jane McNeil

MERCHANDISING HONOR SOCIETY

Advisor: Mr. Fred Folkman
President: Leslie Sherman
Vice-President: Lily Sing

The field of merchandising encompasses such activities as buying, selling, and advertising. Trade and exchange, the basis of merchandising, are known to have existed long before the time of the early Egyptians in the form of barter. Today, merchandising is an ever growing field.

Jamaica's Merchandising Honor Society, under the Accounting and Merchandising Department, requires of its members, an 80% average in Merchandising courses, and a sincere interest in the field of merchandising. Tutoring, aid in merchandising, selling ads for the Spring Arts Festival, and listening to guest speakers from department stores are among the many duties and activities of the club.

TIRONIAN HONOR SOCIETY

The name of this honor society, Tironian, comes from an ancient word referring to the shorthand symbols used in the stenographic writings of ancient Greece and Rome. The Jamaica Tironian Honor Society is one of the most important associations in the Secretarial Studies Department of Jamaica High School. A 90% average in Stenography and a good citizenship rating are required of all its members. The Tironians tutor in Stenography, assist teachers with secretarial work, and work at P.T.A. meetings.

ARTISANS

Advisor: Mr. Paul Tannenbaum
Captain: Allen Toao

"Artitus" is the Latin word which means skill in the arts. The Artisans, one of Jamaica High School's technical clubs, uses this skill to aid the teachers in the school. A term of shop and an established proficiency with tools are requirements for membership in this society. The captain, Allen Toao, supervises the club's many activities, which include the making of props for school productions, and the care of minor repairs in the school.

DRAMA CORPS

Drama, one of the first literary forms, has had a great influence on man throughout the ages. It is a form of communication between a writer and an audience through the medium of actors and the spoken word.

The members of Drama Corps, supervised by Mr. Bruce Schneider, play an active part in school activities. The casts for our school plays are chosen from among the talented students in Drama Corps'. In addition to performing in school plays, Drama Corps also puts on skits for the P.T.A., and produces outside shows for the children in the Queens Children's Shelter. Each term the Drama Corps newspaper is published, which includes interviews with leading figures of the theater, and other news items of interest.

To become eligible for membership, Jamaicans must maintain an 80% overall average with no less than an 85% in Oral English, one term of Production class, and a teacher's recommendation. An audition and a dramatic improvisation are also required.

ART "J"

Jamaicans looking for a place to let their creativity run wild converge upon Publicity Council, Jamaica's Art Honor Society. Under the supervision of Mrs. Elaine Lipitz, these talented students decorate the halls of the school with posters advertising school activities, enter nation-wide poster contests, design the scenery for school plays, and publish a Publicity Council coloring book.

To become eligible for membership, talented students must demonstrate their unique qualities of creativity during the six week training period by submitting mandatory posters and other assignments for judgment.

HEBREW CLUB

Modern Israel, its Biblical heritage, secular history, problems, and achievements, are subjects of discussion in Jamaica's Hebrew Club. The members, supervised by Mr. Ben Wieder, participate in panel discussions, sing Hebrew songs, listen to records, and watch films. Distinguished guests from the Hebrew Culture Council speak to the members about the problems of Israel, the workings of its parliamentary system of government, and various other related subjects.

FUTURE TEACHERS' HONOR SOCIETY

Advisor: Miss Anita C. Liotta
President: Joan Kenler
Vice-President: Diane Krebs
Treasurer: Elaine Raizman
Secretary: Ronda Wank

The Future Teachers Honor Society is designed to acquaint the students who have an interest in teaching with the problems and purposes of the profession. This organization is affiliated with the Future Teachers of America, a national organization sponsored by the National Education Association. As it is an honor society, each student must maintain an 80% overall average with no failures. He must give aid to two subject teachers, or participate in a tutoring program. Each year an award is given to the most outstanding graduating student member. This year the award is being given to Kim Mark for her dedicated participation in the Future Teachers Honor Society.

"The greatest manpower shortage in the United States today exists in the field of professional nursing. It is the goal of the Future Nurses Club to acquaint the students with this need for nurses, to stimulate interest in the fields of nursing by bringing to their attention the enormous opportunities offered."—Mrs. Virginia Wax.

Films and field trips to nursing schools, hospitals, and other community health agencies, give the girls a taste of the feeling of satisfaction and accomplishment one experiences from the knowledge that one has done something to further the health and happiness of some human being. The club, which is participating in a national youth program to help the nation meet future nursing needs, has just become a charter member of the National Future Nurses Society.

GIRLS' LEAGUE

Advisor: Mrs. Charlotte D. Chickering
President: Marilyn Spirt
Vice-President: Ruth Balser
Corresponding Secretary: Eleanor Fox
Recording Secretary: Pamela Storm
Treasurer: Claire Shottenfeld

"Servitum — We shall serve," is the motto of Jamaica's Girls League Honor Organization, an essential organ of the school which is taken much for granted by Jamaica's student body. Drawing from its extensive resource of students with high academic standing and willingness to serve and work for the benefit of others, the League, sponsored by Mrs. Charlotte D. Chickering, provides service aids for teachers; ushers for school functions, such as college and open school nights, and the fall and spring productions; and sponsors community drives such as the Thanksgiving Canned Goods Drive, the Christmas Drive, and the Cake Sale to aid those less fortunate than ourselves.

This year, the officers visited the Girls' League of Martin Van Buren High School in the first Interscholar Girls' League Conference. This exchange of ideas proved to be very interesting and profitable.

LEADERS

Advisor: Mrs. Genevieve Klein

The girls in the Leaders Club of Jamaica High School, an honor society under the auspices of the Girls' Health Education Department, serve as aids to the gym teachers. The main requirements for this honor society are an 80% average and proficiency in athletics.

The ambitious Leaders started a Big Sister-Little Sister program with Leaders-In-Training, giving their "little sisters" uniforms; and had a basketball playday and a Leaders weekend with Leaders from all the New York City high schools. Each Leader attends a second period training class taught by Miss Ann Soernssen and assists one period daily.

"Reasoning and judgment are the qualities of a leader."

Practically every student who has ever attended Jamaica High School has, at one time or another, ventured into the aquarium—better known as the swimming pool. The skill of swimming is required of every Jamaica graduate. Swim Assistants serve their fellow students by teaching them the art of swimming.

Requirements for membership in this honor organization are an 80% average and a proficiency in swimming. Two periods of training and two periods of service per week are the requirements of every Swim Assistant. These girls acquire their Junior and Senior Life Saving Red Cross Awards in the course of their training. Many members of this organization have competed for the Fifty Mile President's Council on Physical Fitness Award this year. Thus far, Susan Shapiro and Susan Wohryzek have won this honor.

The dance, one of the oldest and liveliest arts, is the language of the body in grace and movement. Just as a writer expresses himself in words, and a painter in colors and form, a dancer expresses ideas and feelings in rhythm and body movement.

Dance Corps, an honor organization of the Girls' Health Education Department, is composed of girls talented in the art of dance. After a one term training period in Dance-Corps-in-Training, these girls were auditioned and chosen by the members of Dance Corps and their faculty advisor, Mrs. Eugenie Dancis. Besides participating in our Spring Arts Festival, the members also entertain for hospitals at Christmas time.

SKI CLUB

"Yip, Yip, Yo," a traditional phrase coined by Mr. Greenfest and the members of the Jamaica High School Ski Club, expresses the excitement felt by those who go shooshing down the slopes. Exercises and techniques of skiing are taught to new members of the club by films and demonstrations. Highlights of the year include a one day ski trip and a ski weekend.

GIRLS' BOWLING CLUB

Activities of the Girls' Bowling Club, under the direction of Mrs. Florence Budwash, include bowling instruction and tournaments. Competition for trophies takes place during the weekly meetings of the club.

GIRLS' GOLF CLUB

Golf, an outdoor game, played on any greensward, is of Scottish origin, but has been accepted as a national sport of America. This year, weather permitting, several ambitious girls, accompanied by their sponsor, Mrs. Florence Budwash, can be found putting a small white ball across the field. Although none of the girls are of professional status, they are enthusiastic and enjoy learning the skills of golf.

HONOR GUARD

The Jamaica High School Honor Guard Organization, under the direction of Mr. Ronald Basil, collects tickets at school performances, patrols the halls of the school, and aids teachers.

The ten members of the Parking Squad, sponsored by Mr. Gerald Perlin, check areas for unauthorized parkers, register all cars of teachers, custodians, and other personnel connected with Jamaica High School, and enforce parking restrictions. The squad plans to have emblems for all the members, and decals for legally parked cars.

CHEERLEADERS

Advisor: Mrs. Florence Needleman

Captain: Laura Finley

Co-Captain: Janet Cohen

Our twelve Cheerleaders spread team spirit during soccer, basketball, baseball, and swim meets. Led by Captain Laura Finley and Co-Captain Janet Cohen, the girls practice four periods a week to achieve perfection. Cheerleaders, as members in an honor society, must maintain an 80% average. Acceptance into this select society is based upon a good record, grace, coordination, personality, appearance, and potential. With the aid of their sponsor, Mrs. Florence Needleman, the girls whip up participation cheers for the crowds that come to school games.

BOOSTER SQUAD LEADERS

Advisor: Mrs. Renee Resnick
 Captain: Barbara Bolog
 Co-Captain: Barbara Pisapia

The Booster Squad Leaders, headed by Captain Barbara Bolog and Co-Captain Barbara Pisapia, and sponsored by Mrs. Renee Resnick, led the two hundred boosters in cheering for various teams, swimming meets, and basketball games throughout the year. The small squad of nine girls led the largest body of boosters Jamaica has ever had. In addition to attending games, the girls meet among themselves two periods weekly, and practice with the cheerleaders. Red beanies and blue sweaters have been adopted as the new Booster Squad Leader uniforms.

FENCING TEAM

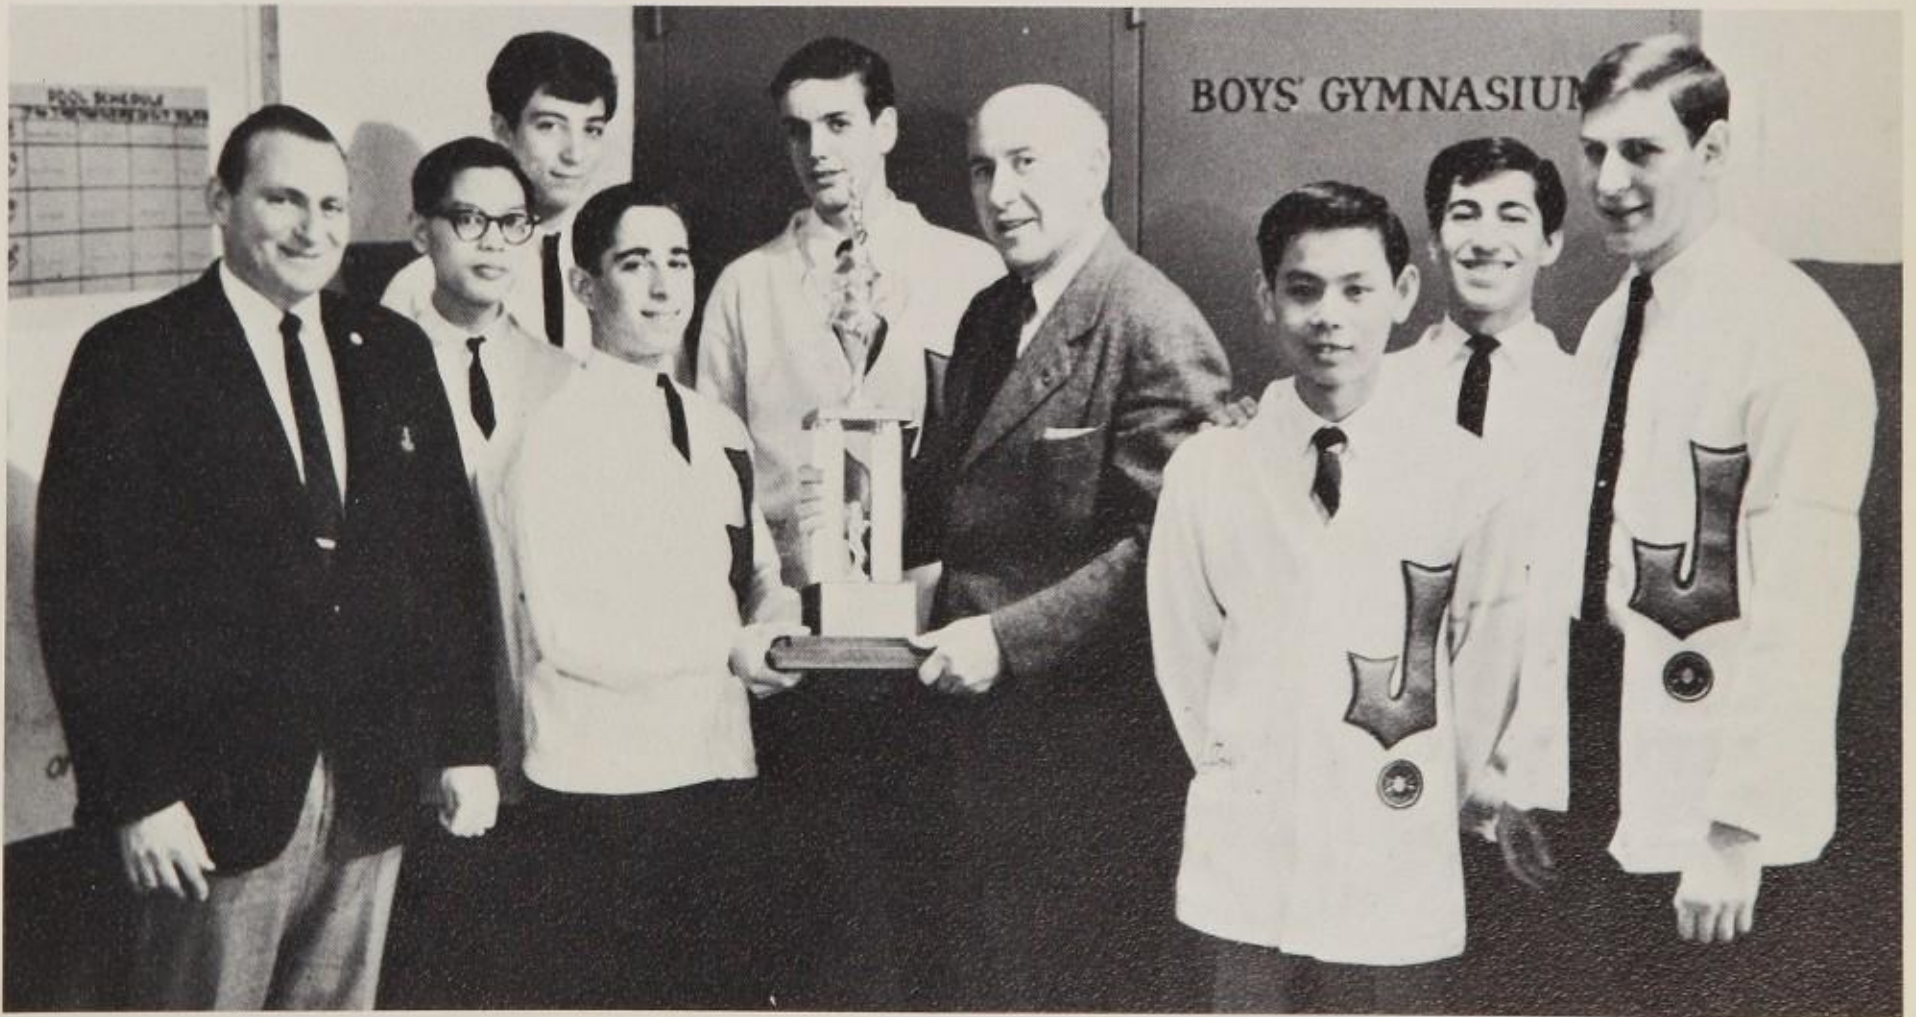

Equipped with new electrical scoring devices similar to those used in the Olympics, the Fencing Team won its fourth consecutive Queens championship, completing its fourth undefeated season. The new equipment facilitates scoring and eliminates many disputes over touches.

The team, of Captain Daniel Gottesman, Jules Smith, Craig Stransky, Jerry Chad, Joe Shamash, and Joe Tsue, fenced brilliantly, topping Martin Van Buren and Aviation High Schools by identical scores of 9-3 in early season competition. The swordsmen set a new P.S.A.L. record in the Van Buren match by scoring eighteen consecutive touches without a return.

The Fencing Team completed their finest season by defeating Far Rockaway and winning the City Championship. The highlight of the match was Jerry Chad's upset victory over one of the top high school fencers in the country.

Much of our success, states Mr. Gerald Perlin, is due to "constant practice" and "fervent dedication." This can be evidenced by the long hours of practice outside of school.

BASKETBALL TEAM

Coach: Mr. Hilton Shapiro

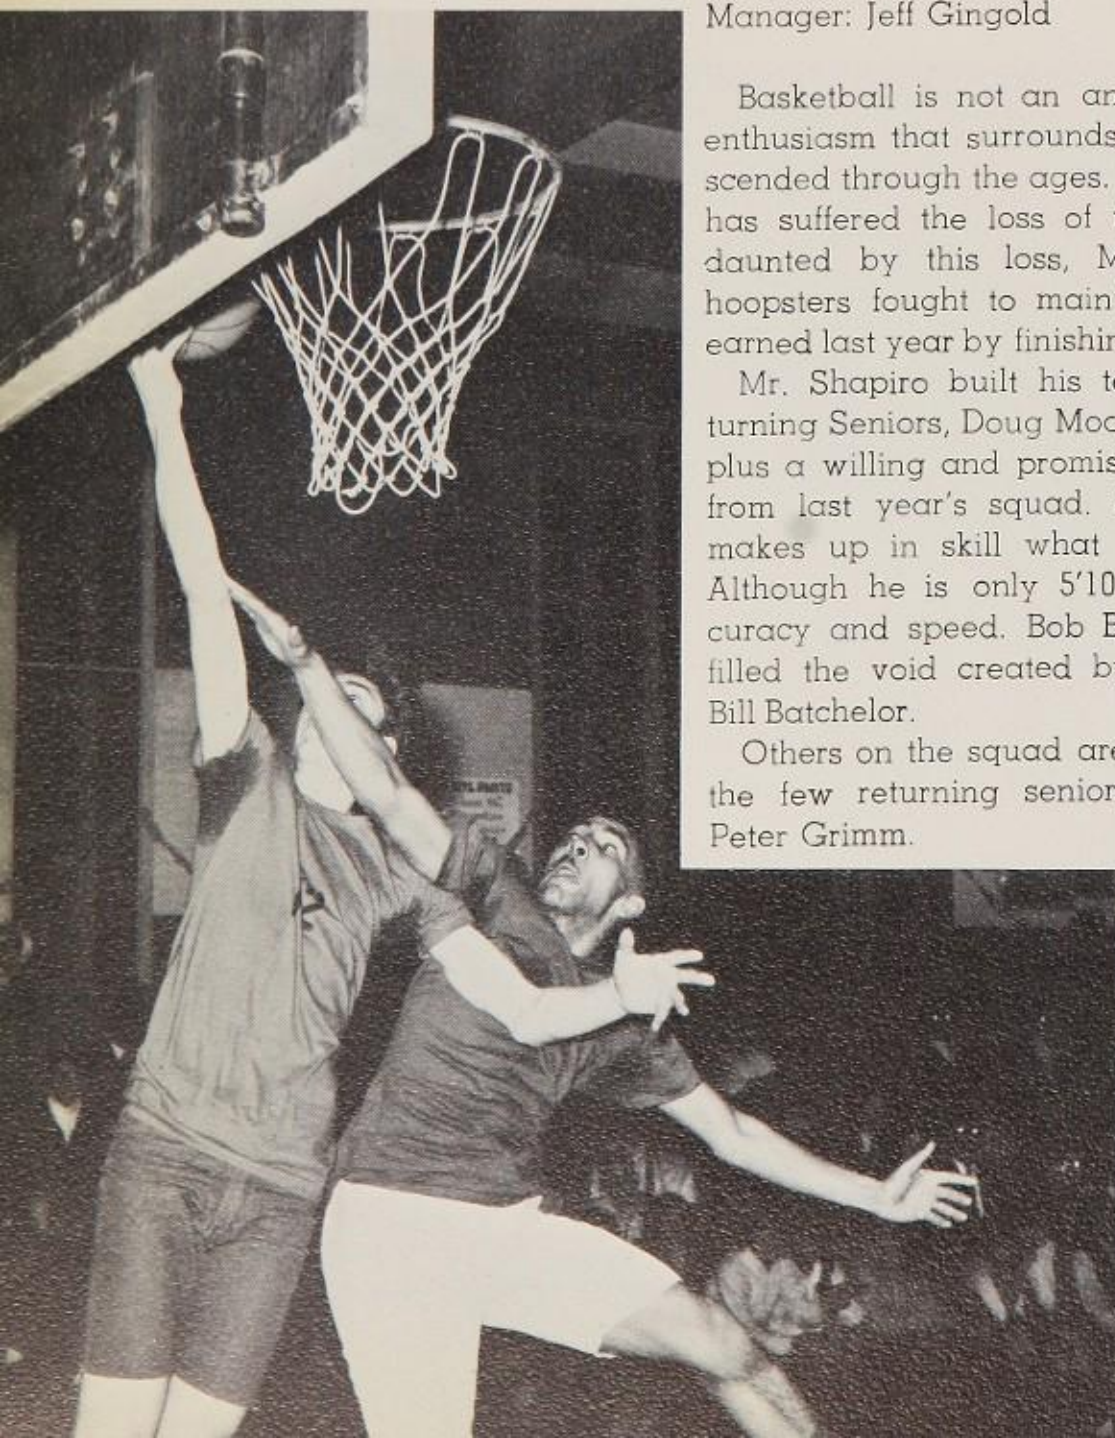

Captain: Douglas Moore

Manager: Jeff Gingold

Basketball is not an ancient word, but the enthusiasm that surrounds our team has transcended through the ages. The basketball team has suffered the loss of the "Big Five." Undaunted by this loss, Mr. Hilton Shapiro's hoopsters fought to maintain the status they earned last year by finishing second in Queens.

Mr. Shapiro built his team around the returning Seniors, Doug Moore and Bob Beamon, plus a willing and promising team of players from last year's squad. Senior Doug Moore makes up in skill what he lacks in height. Although he is only 5'10", he has great accuracy and speed. Bob Beamon, at 6'2", has filled the void created by the graduation of Bill Batchelor.

Others on the squad are Ron Gaines, one of the few returning seniors, Leon Jamie, and Peter Grimm.

TENNIS TEAM

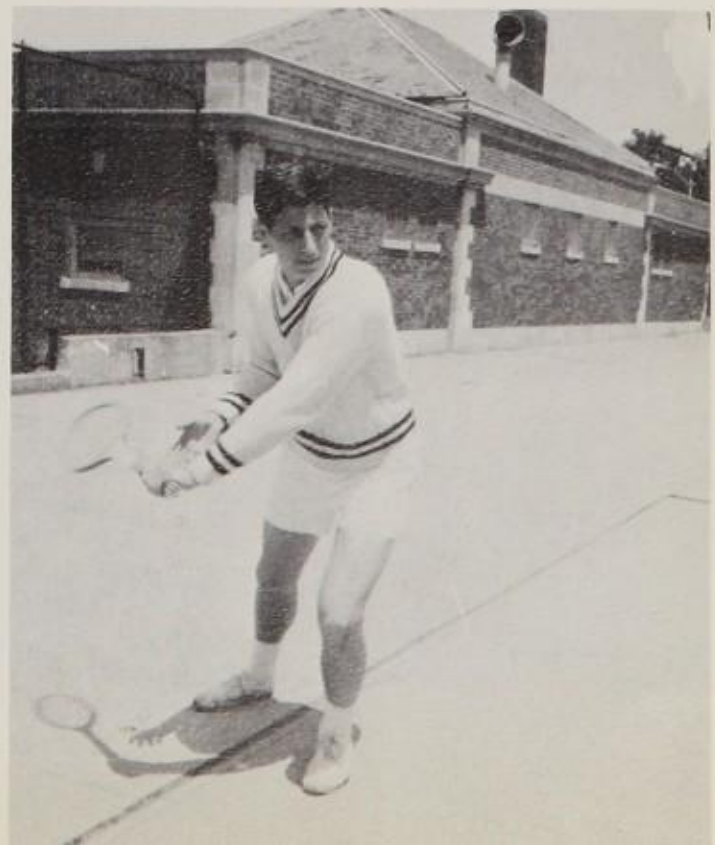

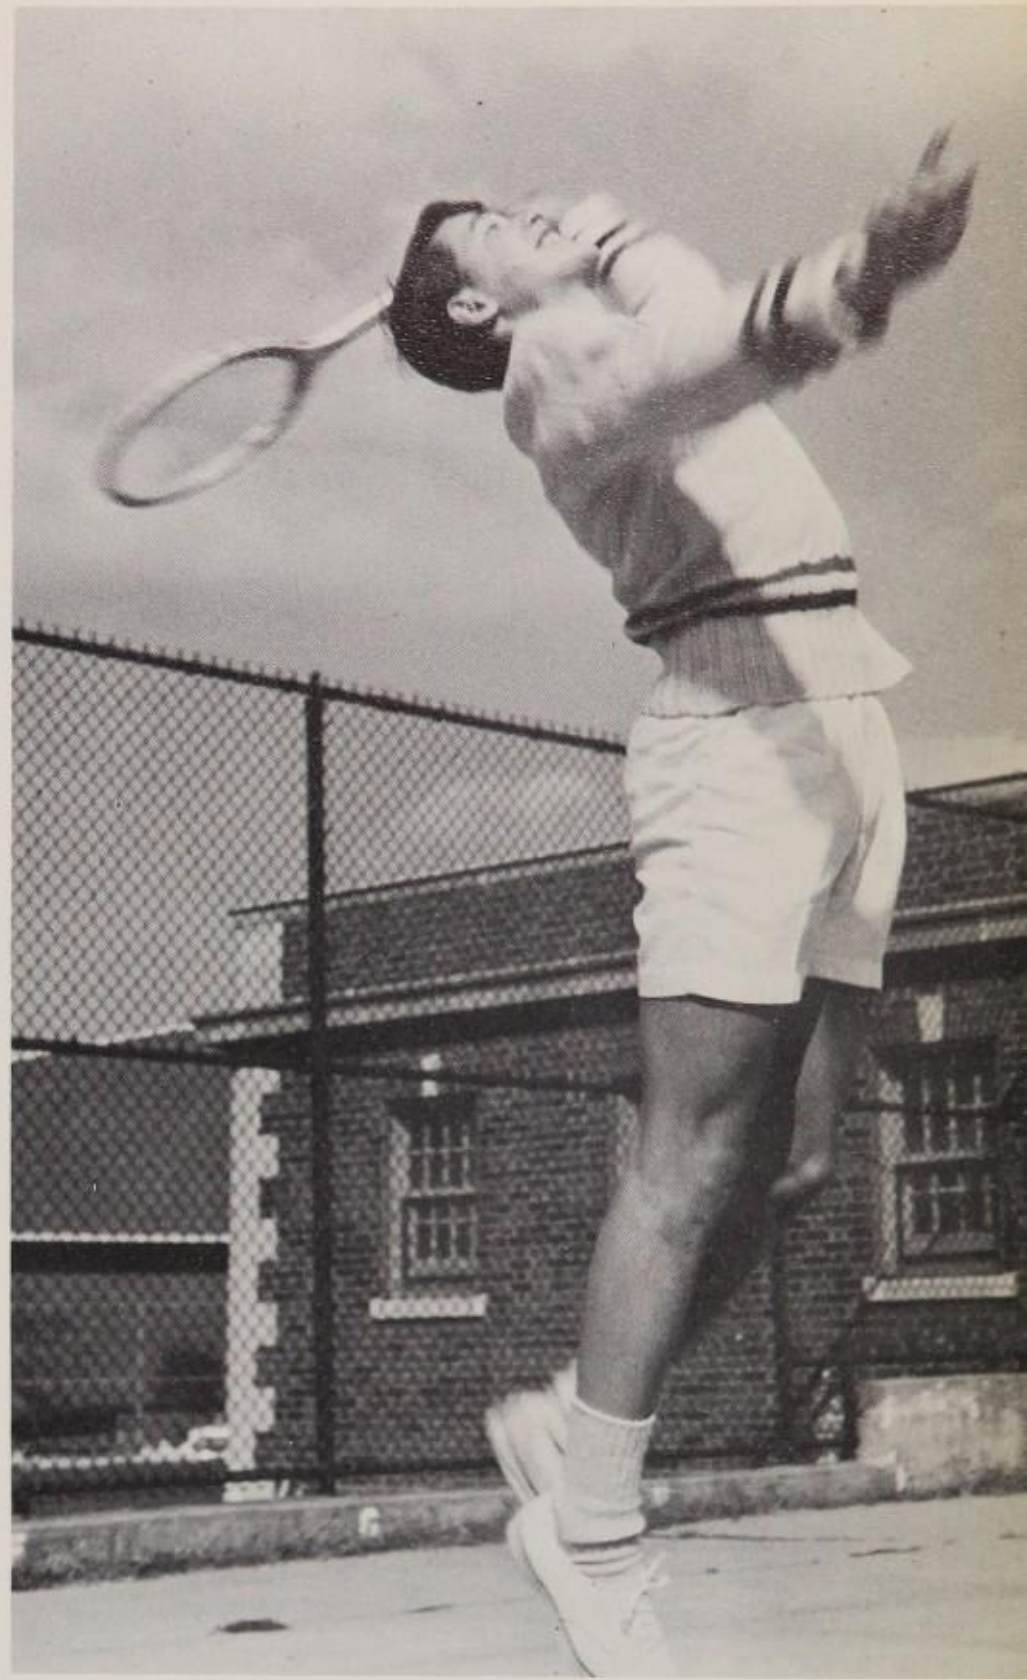

Coach: Dr. Howard Hurwitz
Captain: Jay Barkoe
Manager: Lester Sonnenmark

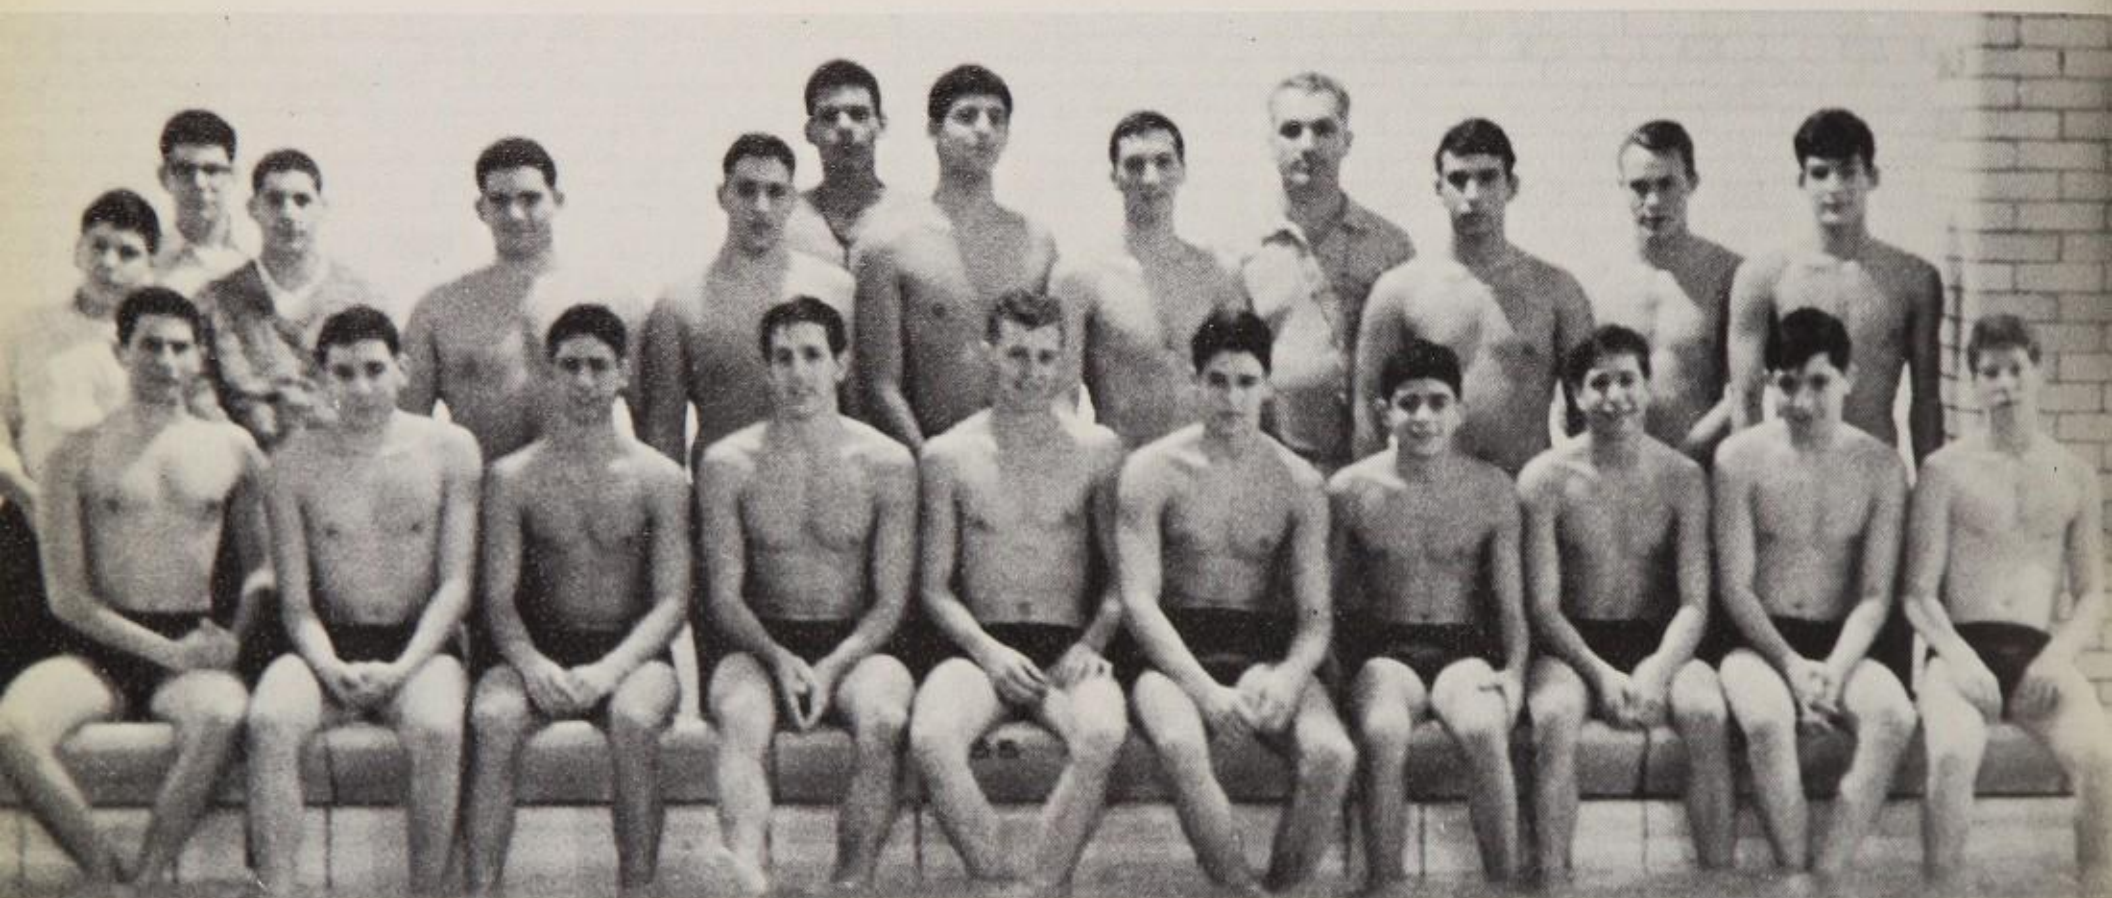

The word tennis comes from the French word "tenez," which is a command to play. A game resembling tennis was played by the ancient Greeks, however the modern form of the game began in France in the Middle Ages.

This year's tennis team is comparatively small. However, Dr. Hurwitz, the team sponsor, feels that the team's interest in tennis will overcome the size of the team. There are only two seniors on the team, Jay Barkoe, Team Captain C, and Lester Sonnenmark, Team Manager. The team's most promising junior players are Joseph Ambash and Kent Mahament.

This year a group of Jamaicans strove to join the ranks of Leander, famed legendary swimmer of Hellespont, and Julius Caesar, who was known to be one of the greatest swimmers of Rome. Engaging in one of the world's oldest sports, the aquamen, under the guidance of Mr. Anselmo Piacentino, hoped to better last year's finish of second in Queens. The Swimming Team's bid for the championship was strengthened by returning seniors Bob Lederman, and Larry Smith (co-captains of this year's team). Other mainstays in competition were Vasco Kazarov, an excellent athlete in the 100, 200, and 400 meter events. Al Rieman, a strong freestylist in 50 and 100 meters, and Mark Simms, an excellent candidate for All-Queens, who has been undefeated in league competition. The toughest battles were fought with Bayside High School, which in Mr. Piacentino's words, "has one of the best teams in the league." The outlook is very bright for next year's team, with many promising swimmers returning with the experience of past competition. Among them will be next year's Co-Captains, Al Rieman and Mark Simms.

Baseball, a comparatively new game, has become one of Jamaica High School's major sports. The team, coached by Mr. Anselmo Piasentino and led by Co-Captains Dan Mettinis and Mark Kenny, will attempt to defeat Bayside High School, which defeated us in last year's Queens playoffs. With the aid of Randy Fisher, a fine pitcher, and Frank Gimelli, a strong outfielder, the team hopes to achieve first place in this year's competition.

HANDBALL TEAM

Advisor: Mr. Ronald Basil
Captain: Charles Schub

Although handball originated in Ireland over a thousand years ago, and is considered one of the national games of that country, it is now more popular in the United States than in any other country in the world.

Our team, bolstered by returning seniors and promising sophomores, should fulfill Coach Ronald Basil's expectations for a better record than that of last year. The team hopes to be a strong contender for the division and the Queens title. Chuck Schub, who gained valuable experience playing on the second doubles team last year, should combine with Richie Addison on the first doubles team this season. The singles positions will most likely be manned by Doug Smith, Lloyd Cox, and Alan Papier, respectively. The team keeps in shape by practicing at local courts, and many members participate in local tournaments.

SOCCER TEAM

Coach: Mr. Leo Greenfest

Captain: Irving Williams

Soccer, with the largest following of any spectator sport in the world, is finally gaining the recognition it deserves in the United States. In recent years, professional teams playing at Randalls Island have attracted loyal crowds, and college and high school teams have attracted merited attention.

Finishing with a 7-2-2 record, and a resulting third place in their division, our Soccer Team had its hopes for its first city championship dashed after a valiant struggle. The team played the last half of the season knowing that one loss would eliminate them, and under this great pressure, they played undefeated in those games. In post season action, the Booters won two playoff rounds before finally losing to New Utrecht, 2-1, with the winning goal coming in the final thirty seconds. The team earned a third place finish in the city finals by beating Morris High School, 2-1, in the consolation round.

The team was led by Captain Irving Williams, a native of St. Kitts Island, West Indies, and an all-city center halfback last year. The Arrata brothers, Enrique and Patricio, starred throughout the season with their drive and scoring skill. Against Aviation High School, Enrique booted three goals, while Patricio demonstrated his ability by scoring one out of two against Franklin K. Lane High School, and two against Martin Van Buren. A great asset to our high scorers was Gilbert Berne, an excellent ball handler, who set up all our goals against Erasmus High School in the playoffs. Coach Leo Greenfest has praised Joel Wolk, an excellent halfback and Carlos Diaz, our finest fullback in years. The all important position of goalie was manned alternately by Ezra Helfand, Ronnie Rosner and Charles Loperero. Rosner took over for the injured Helfand, and contributed many important saves in the playoffs.

Riflery is an individual sport, in which six men shoot and the five highest scores are totaled to determine the winning team.

Handicapped by the absence of many returning seniors, Mr. Ronald Basil found himself relying on his three captains: Bruce Burgreen, Marty Lynn, and Mel Matza. They were chosen in a pre-season elimination round in which they all averaged over 160, with Burgreen averaging over 170.

The team finished the season with an 8-4 record and a third place in the Queens Championship.

The bowling team, after winning a place in the Queens finals, played and lost to Adams High School. The discovery that six members of the Adams' team bowl professionally caused a rematch with Newton to be scheduled. Our team lost this match 2-0, and, subsequently finished in second place in the Queens division.

TRACK TEAM

Track is becoming the world's top competitive sport, as evidenced in the 1964 Olympic Games in Tokyo, the ultimate goal of every trackman. Despite stiff competition from the teams of neighboring schools, especially Andrew Jackson, the Jamaica High School Track Team has done exceptionally well, and is now working towards the Borough Championship. The Beavers, under the direction of Mr. Lawrence Ellis, excel in both team and individual events.

Advisor: Mr. Lawrence Ellis
 Captain: Peter Farnum
 Managers: Toby Washington
 Bob Cervantes

Cross country is a type of long distance running in track and field sports. Under the tutelage of their Coach, Mr. Lawrence Ellis, the Beavers, placed fourth in the Fordham Meet, twelfth in the N.Y.U. Meet, and fourteenth in the St. John's Meet, with forty schools competing. In the Queens Championship, the Beavers came in second to Andrew Jackson, and in the City Championship of sixty competing schools (the biggest meet of the year), we placed fourth.

Our trackmen put in an average of twenty miles a week of practice. From these strenuous workouts have emerged some outstanding runners to back up the team. Among them are Don Knox, who achieved the fastest speed this season, 14 min. 19 sec.; Walter Davis, 14:23; Peter Farnum, 14:37; Victor Ortiz, 14:30; and Eric Wayne, 14:20.

We Salute You!

Congratulations and the best of luck! We at Lincoln are proud of the part we have had in helping to make your classbook a permanent reminder of your school years, recording with photographs one of the happiest and most exciting times of your life! We hope that, just as you have chosen us as your class photographer, you will continue to think of Lincoln Studios when you want photographs to help you remember other momentous days to come! When you choose Lincoln portraits, you are sure of the finest craftsmanship at the most moderate prices!

*"Lives of great men all remind us
We can make our lives sublime,
And, departing, leave behind us
Footprints on the sands of time."*

Henry Wadsworth Longfellow
